

DREAMS...

**...COME TRUE. WE ARE WORKING ON IT EVERYDAY.
HOPEFULLY SOON WITH YOU!**

For Knorr-Bremse Systems for Truck Vehicles GmbH in Munich we are looking for a

Master Thesis - Influences of Covid-19 Pandemic on the Commercial Vehicle Industry

Reference Code DE_MUC_50830956_2

YOUR TASKS

- Anticipated economic consequences on a macroeconomic level based on publications from state organizations, NGOs and other relevant think tanks (e.g. WTO, World Bank, Fed, BMWi, ifo)
- Predicted economic consequences on the industry and on a microeconomic level for the commercial vehicles industry from research institutes, lobby organizations and relevant think tanks (e.g. BDI, CLEPA, OICA, VDA)
- Impact of the Covid-19 pandemic on industry trends (e.g. acceleration or deceleration on megatrends and industry trends within commercial vehicles industry, such as Highly Automated Driving, E-Mobility, Digitalization, Traffic Safety, Urbanization)
- Developing a qualitative methodology to analyse trends by interviewing internal and external operators
- Interviews with different stakeholders for validation (e.g. Internal Knorr-Bremse experts, OEMs/suppliers in the commercial vehicle)
- Strategic techno-economic recommendations for action for Knorr-Bremse

YOUR PROFILE

- Study of industrial engineering, business administration, economics, mechanical engineering or comparable
- Very good written and spoken English
- Knowledge in Microsoft Office
- Good communication skills and ability to work in a team
- Initiative and a good sense of responsibility
- Interest for interdisciplinary and strategic topics within the commercial vehicle industry
