We believe the best education you can get comes from traveling and participating in other countries’ culture. We believe that everyone should have the opportunity to travel and learn. Based on these principles, we have designed unique, affordable and high quality travel, internship and volunteering programmes, aimed at students and young graduates.

Through these programmes, you will grow professionally and personally, by working in a professional setting and living for a few months in an Asian country with new languages and food. Experiencing the booming development in Asia will contribute to making you a better global citizen.

  - China

**Why Asia?**
- Globalisation is making the job market more and more competitive. Your experience from and understanding of Asia will give your applications an edge and help you stand out from the crowd.
- Experience in Asia is increasingly valued by employers. Work experience in Asia will give you an inside view into Asian culture and business practices, making you aware of cultural differences and similarities between Asia and the rest of the world.
- Explore the landscape, nature and beautiful views that define Asia. The food is completely different to anything you have ever tasted. We believe that Asia is the best continent, and we will do everything in our power to give you the same experience.
